Representation Learning Lab (222), Computer Engineering Department, University of Kurdistan, Sanandaj, Iran

BRIEFLY

I am a machine learning researcher at the University of Kurdistan and a member of the Algebraic Machine Learning team led by Dr. Fardin Akhlaghian. My research focuses on representation learning from unlabeled and partially labeled data, with an emphasis on nonnegative matrix factorization and deep learning, including self-supervised learning and adversarial training. I apply these methods to data clustering, matrix completion, multi-view multi-label feature selection, and robust data representation. Alongside my research, I have over ten years of experience in Python programming and software development.

EDUCATION

M.Sc. — Artificial Intelligence, University of Kurdistan, Sanandaj, Iran, (Sep 2019 – Sep 2022)
- GPA: 19.46/20 (4.0/4.0) — ranked 1st among all students in the M.Sc. AI cohort
- Thesis: *Deep Autoencoder-like NMF with Contrastive Regularization and Feature Relationship Preservation* (published in *Expert Systems with Applications*)
- Selected courses: machine learning, statistical pattern recognition, neural networks, computer vision, digital image processing, complex networks

B.Sc. — Software Engineering, University of Kurdistan, Sanandaj, Iran, (Sep 2014 – Feb 2019)
- Final project: website for the Data Science Lab, Department of Computer Engineering

PUBLICATIONS

Journal

Deep Autoencoder-Like NMF with Contrastive Regularization and Feature Relationship Preservation
N. Salahian, F. Akhlaghian, A. Seyedi, and J. Chavoshinejad
Expert Systems with Applications, vol. 214, 119051, 2023.

Self-Supervised Semi-Supervised Nonnegative Matrix Factorization for Data Clustering
J. Chavoshinejad, A. Seyedi, F. Akhlaghian, and **N. Salahian**
Pattern Recognition, vol. 137, 109282, 2023.

Adversarial Elastic Deep Nonnegative Matrix Factorization for Matrix Completion
A. Seyedi, F. Akhlaghian, A. Lotfi, **N. Salahian**, and J. Chavoshinejad
Information Sciences, vol. 621, pp. 562–579, 2023.

Under review

Self-Elastic Nonnegative Matrix Factorization for Robust Data Representation
S. Mohammadi, **N. Salahian**, A. Seyedi, and F. Akhlaghian
International Journal of Machine Learning and Cybernetics (revised and resubmitted).

In preparation

Entropy-Weighted Nonnegative Matrix Factorization with Anchor Graph for Data Clustering
N. Salahian, V. Salahian, and A. Seyedi

Imbalance Label-Wise Consensus Learning for Multi-View Multi-Label Feature Selection
M. Faraji, A. Seyedi, **N. Salahian**, and F. Akhlaghian

EXPERIENCE

Research — Research & Teaching Assistant, University of Kurdistan, Sep 2025 – present (part-time)
- Teaching assistant for the M.Sc. course Image Processing (Fall 2026).

Developer — Senior Web Developer, Tojhal Electronic Commerce, Tehran, Aug 2024 – present
- Development of web applications for the company's clients

Service — Mandatory Military Service, Iran, Nov 2023 – Jul 2024

Research — Research & Teaching Assistant, University of Kurdistan, Sep 2022 – Sep 2023
- Teaching assistant for the M.Sc. course Pattern Recognition (Spring 2023; also Spring 2022, during my M.Sc. studies).

TECHNICAL SKILLS

Machine learning	**PyTorch**, TensorFlow, scikit-learn
Scientific computing	**NumPy**, SciPy, Pandas, Matplotlib, **MATLAB**
Image & text processing	scikit-image, PIL, NLTK
Programming	**Python** (since 2015), MATLAB (since 2020), Java, C#, PHP, JavaScript
Web development	Django, Flask, Laravel, ASP.NET, React, Vue.js, HTML/CSS
Tools	Linux (Ubuntu), LaTeX, Jupyter Notebook, PyCharm

LANGUAGES

Persian	Native
Kurdish	Fluent
English	Professional working proficiency

IELTS ACADEMIC

Overall: 6.5

Reading: 7.0 Listening: 6.0
Speaking: 6.5 Writing: 6.5
